Requires a man who: (1) is party to a paternity action with regard to a child; and (2) learns of a contemporaneous action to terminate parental rights with regard to the child; to provide notice of the paternity action to the court in which the termination action is pending. Provides for circumstances under which a petitioner for termination of parental rights with regard to a child may intervene in a contemporaneous paternity action regarding the child. Provides that an individual who is not a resident of Indiana may file a petition for adoption of a child in Indiana in the same manner as an Indiana resident. Provides that an attorney may file a petition for adoption in the probate court of the county in which the attorney maintains an office. Provides that if: (1) an individual who files a petition for adoption of a child decides not to adopt the child or is unable to adopt the child; and (2) a second or amended petition is filed to adopt the child; a required notice that was provided with regard to the original petition satisfies the same notice requirement for purposes of the second or amended petition. Repeals provisions regarding adoption of a hard to place child by an individual who is not an Indiana resident. Removes requirements for filing multiple copies of an adoption petition. Provides that if a petition for termination of parental rights with regard to a child is pending at the same time as a paternity action is pending with regard to the child, the paternity action and the termination action must be consolidated, with the court in the termination action assuming jurisdiction over the paternity action. Adds statutory requirements for service of notice of an adoption, replacing requirements under current law that provide for notice to be served according to Indiana trial rules regarding service of summons. Provides that if a child who is the subject of an adoption proceeding was conceived in a state other than Indiana in which a putative father registry was in existence at the time of the child's conception, a putative father must register with: (1) that state's putative father registry by the date by which a putative father must register to be entitled to notice of the adoption in that state; or (2) the Indiana putative father registry by the date by which a putative father must register to be entitled to notice of the adoption in Indiana; to be entitled to notice of the child's adoption. Specifies that an individual who is entitled to notice of an adoption is entitled to the notice regardless of the individual's gender. Provides that a putative father must register with the putative father registry to be entitled to notice of proceedings for adoption or for termination of the parent-child relationship. Provides that a child's grandparent has the right to seek visitation when certain conditions are met. Permits a petitioner in an adoption

proceeding to provide notice of the adoption to a grandparent of the child. Allows a petition for visitation to be filed after a child is adopted, unless the grandparent does not file a petition for visitation within 30 days after receiving notice of the adoption. Provides that if: (1) a prospective adoptive parent resides in a state other than Indiana; and (2) the laws of the other state allow persons other than licensed child placing agencies to perform pre-adoption assessments of prospective adoptive parents; written approval by a person allowed to perform preadoption assessments in the other state satisfies the requirement that placement of a child with the prospective adoptive parent must be approved by a licensed child placing agency or by the department of child services. Provides that a putative father's consent to adoption of a child is not required if the putative father has established paternity of the child in a paternity proceeding or by filing a paternity affidavit, unless a genetic test: (1) ordered by the court in the paternity proceeding; or (2) submitted by the putative father in connection with the paternity affidavit; has identified the putative father as the biological father of the child. Allows: (1) a written consent to adoption to be executed in paper or electronic form; and (2) a consent in electronic form to be signed by electronic signature and submitted electronically. Provides that if a consent to adoption executed by a birth parent contains a statement that the birth parent consents unconditionally to the adoption of the child without reservation of any parental rights whatsoever, the agreement, understanding, or belief of the birth parent, or of petitioner for adoption of the child, that the birth parent will: (1) be allowed postadoption visitation with the child; or (2) be provided with postadoption updates regarding the child; does not invalidate the birth parent's consent to the adoption, invalidate the adoption, invalidate the birth parent's voluntary consent to termination of the parent's parent-child relationship with the child, or invalidate the voluntary termination of the parent's parent-child relationship with the child. Requires an individual or agency that arranges for the signing of a consent to an adoption to: (1) provide each consenting birth parent with a written statement identifying the court in which the adoption has or will be filed; or (2) provide each consenting birth parent with the name and location of the court not later than 10 days after the birth parent signs the consent, if: (A) the court is not known to the individual or agency at the time the consent is signed; or (B) the consenting birth parent requests the information. Provides that consent to a child's adoption is not required from: (1) a biological mother who illegally used a controlled substance or controlled substance analog during the pregnancy, at a time at which the biological mother knew or should have known that she was pregnant; or (2) a biological father who, during the pregnancy: (A) offered to pay for an abortion of the child; or (B) otherwise attempted to persuade the child's biological mother to abort the child. Provides that consent to an adoption by a putative father, or by certain other parties entitled to notice of the adoption, is irrevocably implied if the putative father or other party files a motion to contest the adoption and the motion is dismissed for failure of the putative father or other party to: (1) diligently prosecute the motion; (2) comply with procedural rule
